Product Parameter of the Racecourse Channel Black Rubber Drain Cover:

- ①Product name: **Racecourse Channel Black Rubber Drain Cover**
- ②Material: EPDM NBR Silicon or Can Custom
- ③Logo: Can Custom
- ④Size: Can Custom
- ⑤Can Custom: Black or custom
- ⑥Application: Automotive
- ⑦Certifications: IATF16949 ,ISO14001:2015,ROHS,CMC, etc
- ⑧Delivery: 30 -50days after sample confirmation
- ⑨Sample: 25-30 days
- ⑩Payment: 30% deposit, 70% payment before shipment
- ⑪Package: PE bags, Cartons,Pallet
- ⑫Payment Terms: T/T,L/C and so on.

⑬ Shipment Way: Vessel, Air, Express etc.

Product Feature AND Application of the **Racecourse Channel Black Rubber Drain**

Cover:

Racecourse channel rubber drain cover are a proven alternative to traditional concrete drains with UV inhibitors are used to prevent fading and cracking from the sun, chemical-resistant, rustproof and maintenance-free, lightweight and easy to install. Rubber surface can protect horse as well.

The drainage system installed under a horse track plays a critical role in maintaining a consistent and safe racing surface. Racecourse facilities present challenges on how to drain the track in a timely and efficient manner. If a horse track's drainage infrastructure doesn't efficiently remove water, the track can become dangerous. If track areas begin to have pooled water, the chances of injury-causing accidents significantly increase.

Material: Rubber+cast iron

Size: 600*400*40mm/600*300*40mm(With cast iron embedded)

Application: For Racecourse Channel
